

LUMAERA Diffuse

Resin Encapsulated Linear LED Luminaires with a Diffused Opal Finish in a Choice of Static and Dynamic Colour Options
19mm, 37mm, 44mm & 77mm Widths | Outdoor & Indoor Use

LUMAERA-19-3000K, The Peninsula Hotel - London, W1, UK

Remote Driver

Features & Benefits

Continuous Linear Light

Flush and 'H' profile options allow for side or bottom entry cable management, and end-to-end mounting for a continuous linear effect.

Wide Range of LED Selections

Static White, Tunable White, RGB, RGB Dynamic, RGBW & RGBW Dynamic options are available at CRI 80, 90 & 95 CRI. For availability per model, please see P5.

Resin Encapsulation Technology

Luminaires encapsulated in polyurethane resin to ensure environmental robustness and longevity.

Linear Homogeneous Output

Diffused opal finish for homogeneous appearance.

Choose Your Length

Available in a wide range of lengths (105mm - 1505mm) with one driver powering up to 9.6m (6W/m only).

Customisable

Speak to your Vexica representative about any specific requests you have for your project.

Compliance

UKCA, CE, IP67

5-Year Warranty

Standard 5-year warranty, L90 (Static White) @ ~50,000 hours.

The values above are specified at CRI = 80

For CRI = 90 reduce by 10%; for CRI = 95 reduce by 20%

If the data that you require is missing, please contact your Vexica representative

¹ Tunable White consists of 2 channels each rated at 7.5W/m. Lumen values for 2700K & 5000K are taken with the respective channel at 100%. The 'Max' value is taken with both channels at 100% and the combined total output being 15W/m.

² RGB consists of 3 channels (Red, Green & Blue), each capable of outputting 5W/m. The 'Max (White)' value is taken when all channels are at 100% and the fixture is drawing the maximum total luminaire output of 15W/m.

³ RGBW consists of 4 channels each capable of 25% of the maximum total luminaire power output.

⁴ Must be used in conjunction with Vexica HybridDrive6 driver plus PSU. Max cable length from driver to first fitting is 1m, any extensions will require additional equipment. Contact your Vexica rep for details.

Vexica run regular development cycles, continuously optimising and balancing product specifications to best suit our customers. All information therefore, is intended as a guide and specifications may change on occasion without notice or announcement. Technical data is measured under controlled conditions, expected performance is within +/- 10% of advertised figures. Luminaire output stated is actual value from the luminaire itself. Information provided above is intended as a description of the product and shall not be used in the form of any contract.

^aTunable White consists of 2 channels each capable of 50% at the maximum luminaire power rating. When both channels are AT 100%, the maximum power output of the luminaire will be achieved.
^bEach colour channel represents 1/3 of the maximum luminaire power output. When all channels are at 100% the luminaire maximum output will be achieved.
^cMust be used in conjunction with a Vexica HybridDrive6 driver and PSU. Max cable length from driver to first fitting is 1m, any extensions will require additional equipment. Contact your Vexica rep for details.
^dRGBW control is split across 4 channels, with each capable of 25% of the luminaire maximum power rating. When all 4 channels are at 100% the luminaire maximum output will be achieved.
